<b>Selenium (tool)</b>	Completed Selenium Automation Testing training, gaining hands-on experience in writing and executing automation scripts using Java with Selenium.

**Certifications:** **Data Analytics with MySQL**, TechnoTut Solutions LLP.

**Python Basics**, Great Learning.

## EXPERIENCE

---

**Data Analytics Intern** | *TechnoTut Solutions LLP* | Dec 2024 - Feb 2025

- Completed a structured 90-hour internship in data analytics with a focus on SQL.
- Gained Hands-on experience in writing queries, cleaning datasets, and generating reports.
- Learned practical applications of database management and data-driven decision-making.

## PROJECTS

---

**Nrittya (Final year project)** | 05/2025

- A Real Time Image Recognition of Indian Classical Dance forms and Mudras using Deep Learning.
- Developed 35 automated test cases using Selenium to validate image uploads and classification.
- Collaborated within a four-member team to develop and test, contributing to the identification and resolution of 18 critical bugs, improving overall system stability.

---

**Planet Encyclopedia** | 11/2024

- Developed an interactive mini-website using HTML, CSS, and JavaScript.
- Designed a revolving solar system animation an an in-depth planet encyclopedia.
- Contributed to debugging and fixing 9 critical issues, which improved overall system stability. Presented this project, which enhanced confidence and communication skills.

## PUBLICATIONS

---

- Detection of Melancholy and anxiety in children using Machine Learning, *IJSEDR publication*,
- Nrittya-A Real time Image recognition of Indian classical dance forms and Mudra, *ISBN publications*,

## ACHIEVEMENTS

---

- **Best Paper Presenter Award**, Fusion 2025 International Conference.
- **Best Outgoing Student Title**, 2025.
